

To Whom it may Concern

27/02/2017

Delta Rubis Petrol Tic. ve San. A.Ş appreciate the work done on several completed projects with Standart Pompa ve Makine San.Tic. A.Ş.

We are using their fire fighting, booster pumps for water application and heavy duty pumps for transferring petroleum applications (Gasoline, Diesel Oil, Jet A1 , Fuel Oil, etc.) in our plants since 2008.

We are fully satisfied with the operational performance of supplied pumps and aftersales services provided since the date of comissioning.

Best Regards,
